# PHYSIOLOGIA BOHEMOSLOVACA

VOL. 21 — 1972

## Contents

Andrýsová O., Rambousek J., Jirásek V., Zvěřina V., Matrká M., Marhold J.: 1-Aryl-3,3-dialkyltriazen compounds toxicity of para-substituted 1-phenyl-3,3-dialkyl-triazene compounds	63
Babický A., Pavlík L., Pařízek J., Ošťádalová I., Kolář J.: Determination of the onset of spontaneous water intake in infant rats	467
Bass A., Chari N., Hájek I.: Comparative aspects of enzyme activity patterns of energy-supplying metabolism in heart muscles of invertebrates and vertebrates	19
Bednařík T., Čajthamlová H.: Agglutinin production in normal and splenectomized rabbits	317
Brodan V., Kuhn E., Miterová L.: Analogy between enzyme kinetics and the removal of bromsulphthalein from plasma	553
Broulík P. D., Ston J., Pacovský V., Hrbá J.: Effect of chronic renal failure on inactivation of parathormone by rat kidney tissue slices	239
Buchanec J.: Contribution to the study of impaired motility of the ureters determined by emotional factors in predisposed children	281
Chavko M., Sova O.: Effect of protein depletion on the incorporation of labelled amino acids into rat liver and muscle homogenates	219
Chorváthová V., Ondřečka R., Džurík R.: Relationship between free fatty acids and glucose uptake by rat kidney cortex slices	629
Cmíral J., Dvořák J., Morávek M.: The dynamic analysis of human reactions to repeated hypoxia by a parallel model	375
Doležal V., Nádvorník F., Nečas E.: Effect of hyperoxia on pre- and postnatal development of young rats. Pathophysiological, histological and haematological changes in young rats born in oxygen	223
Dvořák R., Böhm F.: Oxygen consumption, bile production and haemodynamics of rat liver perfused with blood containing glycerol and dimethyl sulphoxide in normothermia	661
Džurík R., Chorváthová V.: Relation between the uptake of glucose and fatty acids by the rat kidney in vivo	361
Fiala J.: On the relationship between leucocyte osmotic resistant and phagocytic activity	41
Fischer J.: Attempt at an ultrastructural analysis of blood-brain barrier damage in the epileptogenic zone round experimental cobalt-gelatine necrosis in the rat	171
Gerlich V., Krekule I.: Recording of two pulse series on one track of magnetic tape	69
Ginter E., Nemec R.: Dynamics of ascorbic acid stimulation of 26- <sup>14</sup> C cholesterol oxidation in guinea-pigs	539
Gutmann E., Melichna J.: Contractile properties of different skeletal muscles of the rat during development	1
Hájek I., Burešová M., Jakoubek B.: Rapidly labelled RNA in the rat diaphragm in vitro	251
Heřt J., Babický A., Mertl F.: Response of bone to mechanical stimuli. Changes in vascular supply of compact bone during intermittent mechanical loading	265
Hiršová D., Kraml J., Kolínská J.: Study of the active centres of neutral and acid $\beta$ -galactosidase from the small intestine of suckling rats by means of inhibitors	343
Hromadová M., Macho L., Alexandrová M., Šudová K., Štukovský R.: The effect of premature weaning on the response of rat adrenals to stress and ACTH	329
Indra M., Krekule I., Škvařil J., Vlach J.: Interfacing general purpose computer MINSK 22 for input of neurophysiological signals	229
Javorka K., Tomorí Z.: Effect of sympatholytic agents on cardiovascular, respiratory and glottal changes during the apnoeic reflex of nasal origin	517
Jelinek J.: Blood volume in rats with DOCA—hypertension elicited at different ages	581
Korpáš J.: Differentiation of the expiration and the cough reflex	677
Korpáš J.: Expiration reflex from the vocal folds	671
Korpáš J., Hnídková D., Plank J., Buranský J.: Effect of <i>Staphylococcus aureus</i> on respiratory reflexes of the rat	381
Korpáš J., Tatár M.: The expiration reflex from the vocal folds of the rat	667
Křivánek J.: Spreading cortical depression and acetylcholinesterase activity in rat cerebral cortex	163
Křivánek J.: Incorporation of <sup>14</sup> C from glucose into glycogen and some amino acids of cerebral cortex influenced by potassium ions in vivo	615

Kseliková M., Brabec V.: Incorporation of $1\text{-}^{14}\text{C}$ leucine into splenic and hepatic tissue of "hypersplenic" rats	311
Kuneš J., Vizek K., Drahota Z.: Metabolic activity of brown adipose tissue during development	609
Kuntscherová J.: The choline content in rat tissues and plasma after partial pancreatectomy	547
Kuntscherová J.: Effect of short-term starvation and choline on the acetylcholine content of organs of albino rats	655
Macková E., Hník P.: Time course of compensatory hypertrophy of slow and fast rat muscles in relation to age	9
Mareš P., Vitová Z.: Visual evoked potentials in adult rats	623
Mejsnar J., Gregorová S., Janský L.: Interactions of calorigenesis due to exogenous and endogenous noradrenaline in cold-acclimated rats	153
Mikulecký M.: Equivalent plasma volume of bile	323
Mourek J.: Influence of starvation and age on aerobic metabolism in the nervous system of the rat	473
Neradilová M., Blahošová A.: Effect of Mestranol and Superlutin in mobilization of calcium from bone in artificial hyperparathyroidism	647
Novák L., Mišustová J., Hošek B.: Course of respiratory exchange and body temperature in mice after repeated administration of fluoracetate: an indicator of aconitase activity in vivo	53
Petáková M., Simonianová E., Rybák M.: Carboxypeptidases N (kininases I) in rat serum, lungs, liver and spleen and the inactivation of kinins (Bradykinin)	287
Pokorný J., Šterc J., Nováková V.: Influence of the time of weaning and of starvation during the weaning period on the bioelectrical activity of the septo-hypothalamohippocampal system of rats in adulthood	337
Ponec J., Lichardus B.: Urine and sodium excretion after a change in the haematocrit, without and with blood volume expansion, in the rat	177
Pospíšil M., Netiková M., Vacek A.: Local influence of the vasoactive effect of high calcium and hydrogen ion concentrations on the depilatory action of X-rays in young mice	207
Proceedings of the Czechoslovak Physiological Society, June 23—25, 1971	71
Proceedings of the Czechoslovak Physiological Society, January 26—28, 1972	387
Příbýl T., Schreiber V., Roháčová J.: Organ growth and thyroxine binding to tissue proteins in oestrogen-treated rats: Adenohypophysis, adrenals and salivary glands	497
Příbýl T., Schreiber V., Roháčová J.: Further characteristics of the association of thyroxine with adenohypophysial proteins in vitro	503
Roztočil K., Přerovský I., Novák P.: Capillary diffusion capacity for $^{131}\text{I}$ in the muscles and subcutaneous tissue of the upper and lower extremities in man	273
Rychter Z., Ošťádal B., Jelinek R.: Weight analysis of development of the chick embryo myocardium during the terminal phase of its vascularization after administration of 6-azauridine	569
Řežábek K.: The opposite effects of low and high doses of progesterone on the secretion of intra-uterine fluid in rats	137
Schreiber V., Příbýl T., Roháčová J.: Adenohypophysial weight and thyroxine binding by adenohypophysial proteins in vitro: Interactions of oestradiol with gestagens, hydrocortisone and testosterone	152
Schreiber V., Příbýl T., Roháčová J.: Potentiation by perphenazine of the growth reaction of the rat adenohypophysis to oestrogens	639
Sedláček J.: Effect of ouabain on acetylcholinesterase activity in chick embryo brain	589
Sedláček J.: Development of the $\text{Na}^+$ and $\text{K}^+$ concentration in the cerebrospinal fluid of chick embryos	597
Skřivanová J., Baudyšová M., Holečková E.: Multiplication, $\text{O}_2$ consumption and cytochrome oxidase activity of a cold-adapted L cell line	305
Slaviček J.: Effect of $\text{Ba}^{2+}$ on contractility of the isolated right rat ventricle. Substitution of $\text{NaCl}$ for choline or hypertonic sucrose	189
Soukupová M., Hněvkovský P.: The influence of donor age on the behaviour of human embryonic tissue in vitro	485
Sova O., Molnárová B.: On oxytocinase. Changes in the serum activity of the enzyme system degrading S-benzyl-L-cysteine-p-nitroanilide and oxytocin during pregnancy	243
Stárka L., Motlík K., Schreiber V.: Effect of the antiandrogens cyproterone and cyproterone acetate on male rat adrenals	233
Svoboda P., Lodin Z.: Postnatal development of some mitochondrial enzyme activities of cortical neurons and glial cells	457
Syrový I., Gutmann E., Melichna J.: The effect of denervation on contraction and myosin properties of fast and slow rabbit and cat muscles	353

Syrový I., Gutmann E., Melichna J.: Effect of exercise on skeletal muscle myosin ATP-ase activity . . . . .	633
Šalanský I., Útrata F.: Electrical tissue impedance of the organism and its relation to body fluids . . . . .	295
Šmejkal V., Holuša R., Albrecht I., Paleček F.: Chronic lung diseases in SPF rats . . . . .	523
Šmejkal V., Paleček F.: Determination of airway resistance in rats and guinea-pigs . . . . .	563
Šťastný F.: Hydrocortisone as a possible inducer of $\text{Na}^+\text{-K}^+\text{-ATPase}$ in the chick embryo cerebral hemispheres. Effect of metopirone . . . . .	479
Štefl B., Kubištová J.: Low actomyosin content in the body-wall muscle of <i>Ascaris lumbricoides</i> . . . . .	261
Šudová K., Langer P.: Simulation of short-term changes in thyroid function following a single dose of thiocyanate with the aid of an analogue computer . . . . .	511
Tomori Z., Javorka K., Stránský A.: Cardiovascular, respiratory and glottal changes during the apnoeic reflex of olfactory-trigeminal and vagal origin . . . . .	45
Vigaš M., Németh Š.: The effect of pentobarbital anaesthesia on the metabolic reaction and resistance of rats traumatized in the Noble-Collip drum . . . . .	149
Vigaš M., Németh Š., Straková A.: Changes in carbohydrate metabolism of rats during recovery following trauma in the Noble-Collip drum . . . . .	143
Viktora L., Zoubková M.: The myelogram and splenogram of female strain H albino mice . . . . .	213
Vizek K., Hiršová D., Drahota Z.: Changes in the basic components of the interscapular brown fat of the rat during development . . . . .	603
Vlk J.: Influence of the extracellular $\text{Ca}^{++}$ concentration on the positive chronotropic action of adrenaline in the isolated atria of newborn and adult guinea-pigs . . . . .	201
Wachtlová M., Pařízková J.: Comparison of capillary density in skeletal muscles of animals differing in respect of their physical activity — the hare ( <i>Lepus europaeus</i> ), the domestic rabbit ( <i>Oryctolagus domesticus</i> ), the brown rat ( <i>Rattus norvegicus</i> ) and the trained and untrained rat . . . . .	489
Zeleňák I., Varády J., Boda K., Havassy I.: Relationship between ammonia and volatile fatty acid levels in the rumen of fasting sheep . . . . .	531
Zouhar A., Mareš P.: Effect of metrazol and cortical and subcortical electrical activity in rats . . . . .	367
Živný J., Nečas E.: Regulation of erythropoiesis: an attempt to demonstrate the existence of an inhibitor of erythropoiesis . . . . .	33
